COMPANY

BIURFOL has 30 years of experience in producing office and school supplies. We specialise in manufacturing standard and customized products welded and covered with PVC & PP foil.

Our youngest business line and a result of corporate social responsibility vision is BIURFOL Naturalnie. This minimalistic and elegant assortment of office supplies is made of recycled PVC & can be reprocessed into raw material.

In our portfolio we already have over 300 designs of office supplies, marketing & advertising tools. The latter, manufactured under Biurfol Personal brand, are created in collaboration with our Customers. Whether it is the print, embossing or the unconventional shape & form, our team will be happy to help you choose the most suitable solution, according to your style and requirements. We will give you our expertise and add a little twist, to make the product stand out.

Technological innovativeness and wide range of high quality products, are a result of investing consistently in these three, most important factors:

- Reliable and experienced employees,

- Production line based on latest technological solutions,
- Highest quality raw materials.

Today the plant employs over 200 professionals – thanks to them BIURFOL, offers their Customers reliable and kind service, as well as a variety of highest European quality products.

COOPERATION

What enables us to fulfil orders for non-standard products in short series, as well as repetitive, long series, is our production capability, investments in technology upgrades and proper material management.

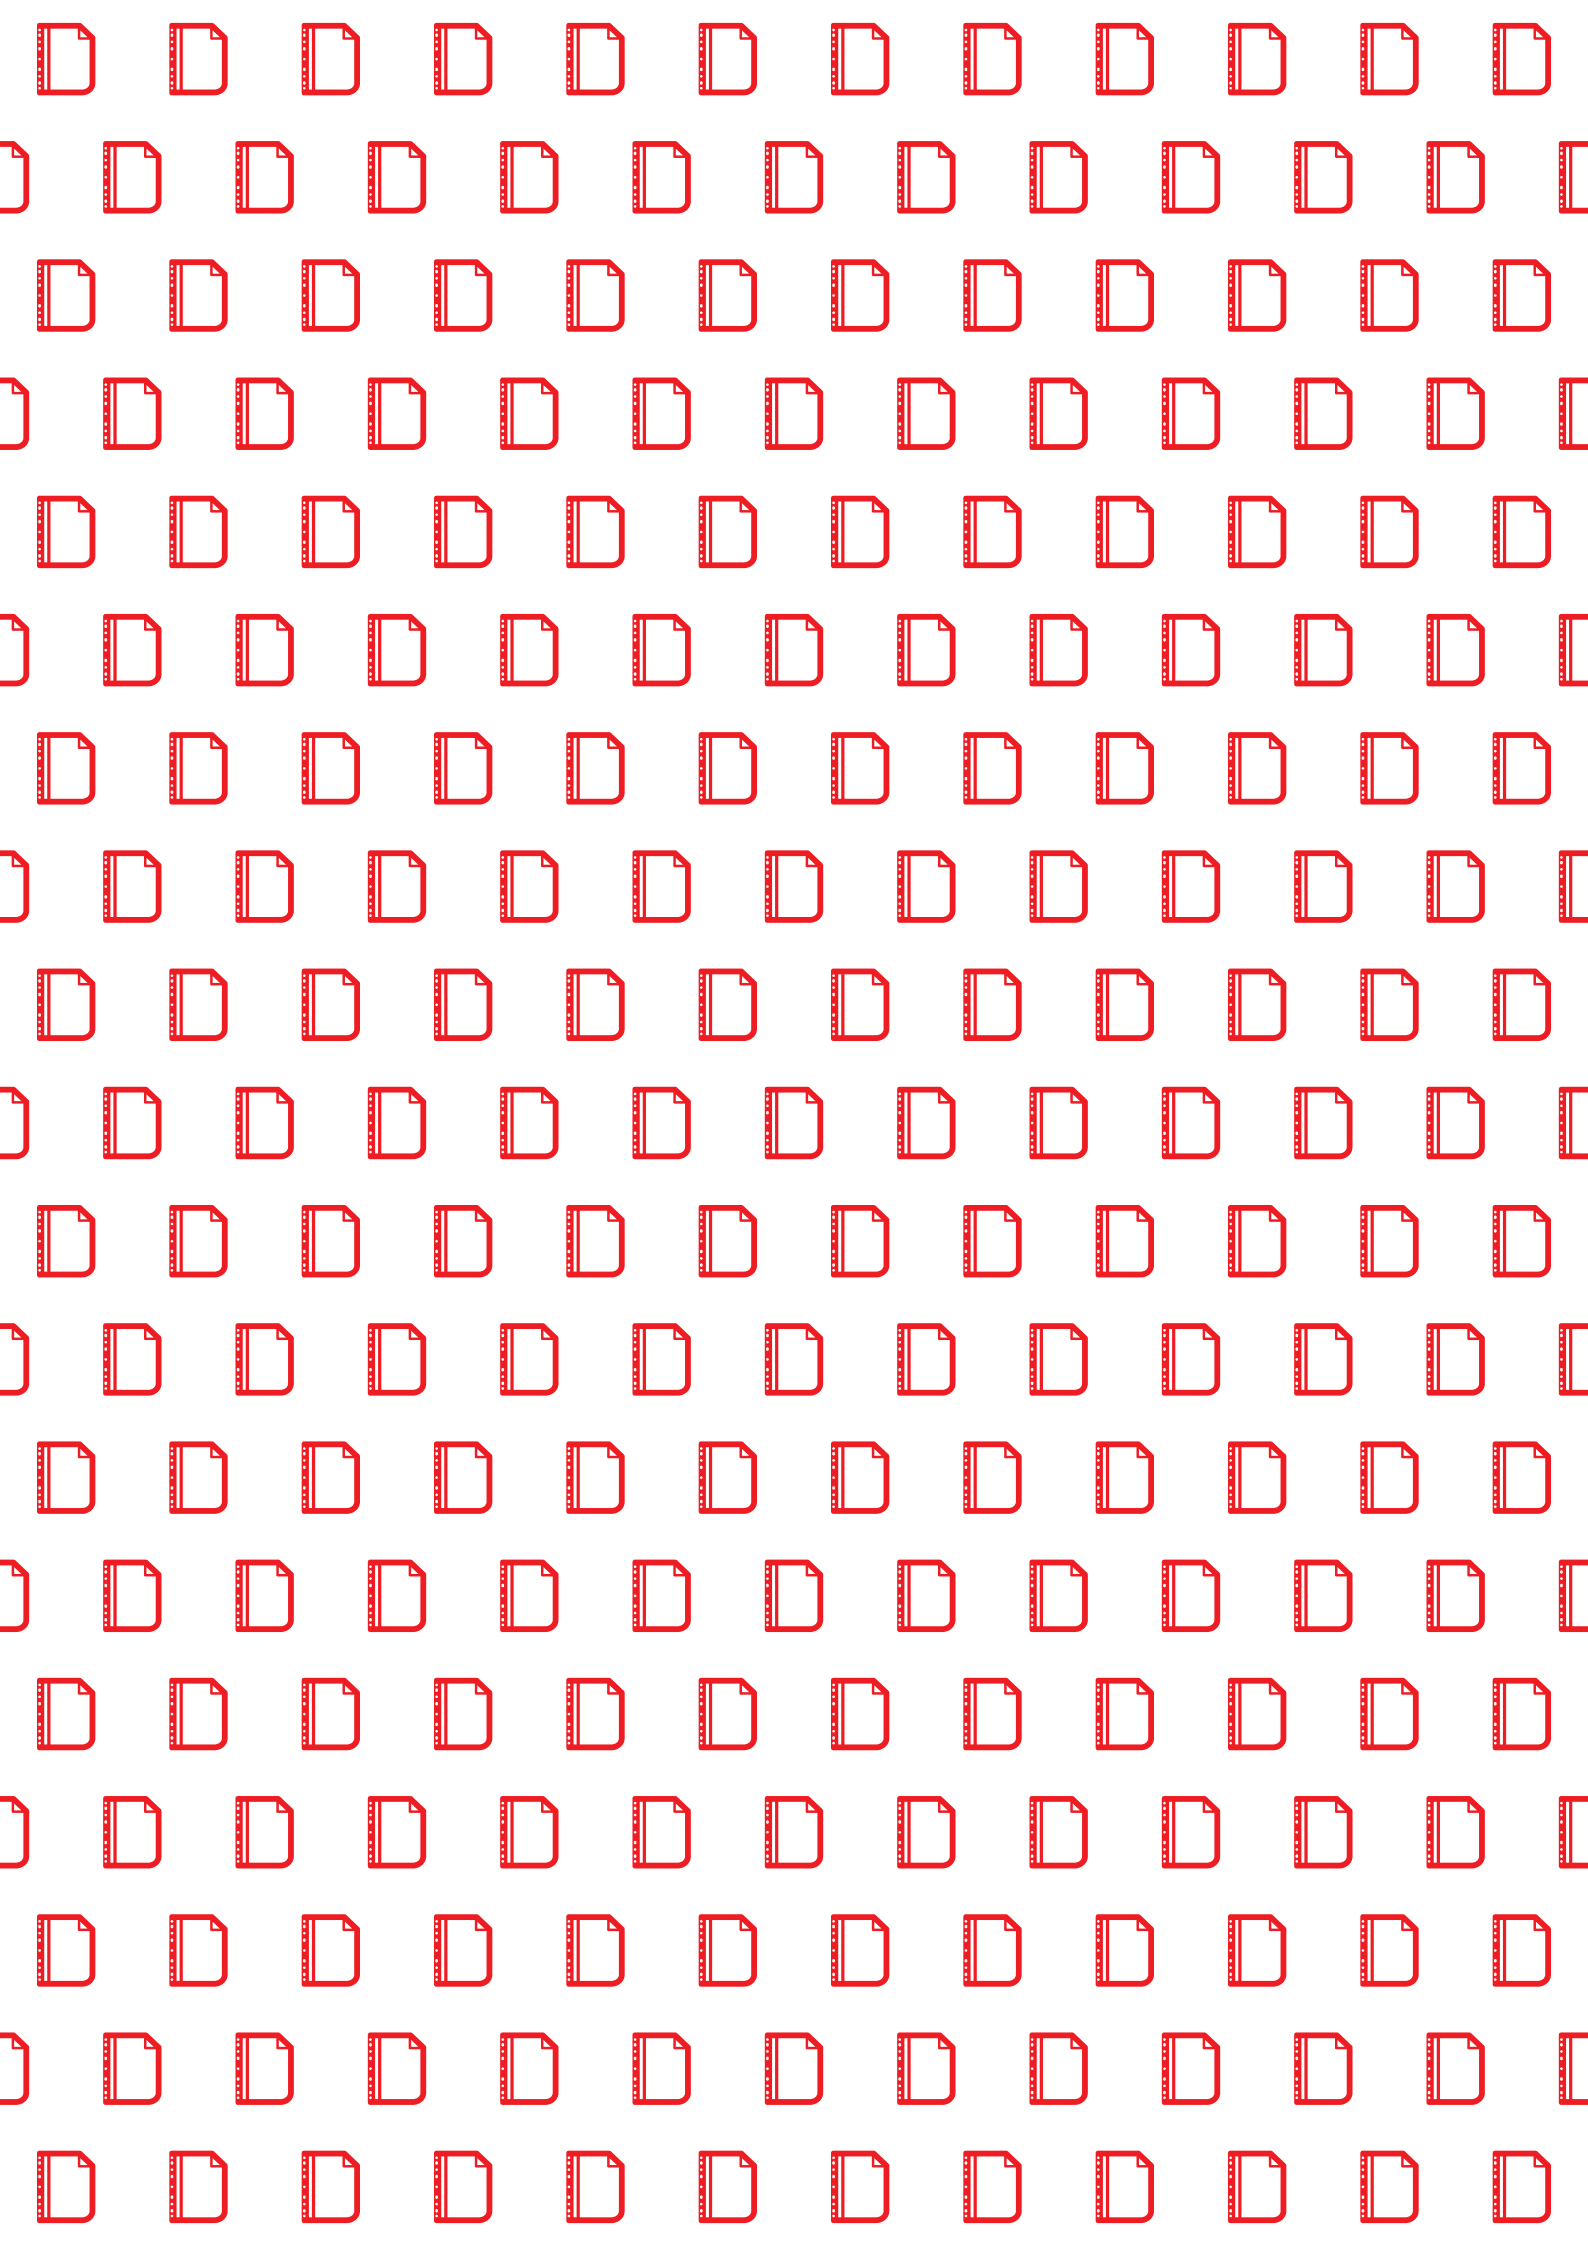

In cooperation with other entrepreneurs, the company founders, Mr. & Mrs. Holz, were always betting on honesty, mutual respect & reliability. This is the direction BIURFOL is following today - we do our best to provide our new partners with this open & approachable attitude.

We will be happy to consider cooperation offers from:

- Distributors in traditional & contemporary sales channels
- Suppliers of raw materials – competent & reliable partners with innovative approach
- Business Partners – ready to develop & increase the market share with us

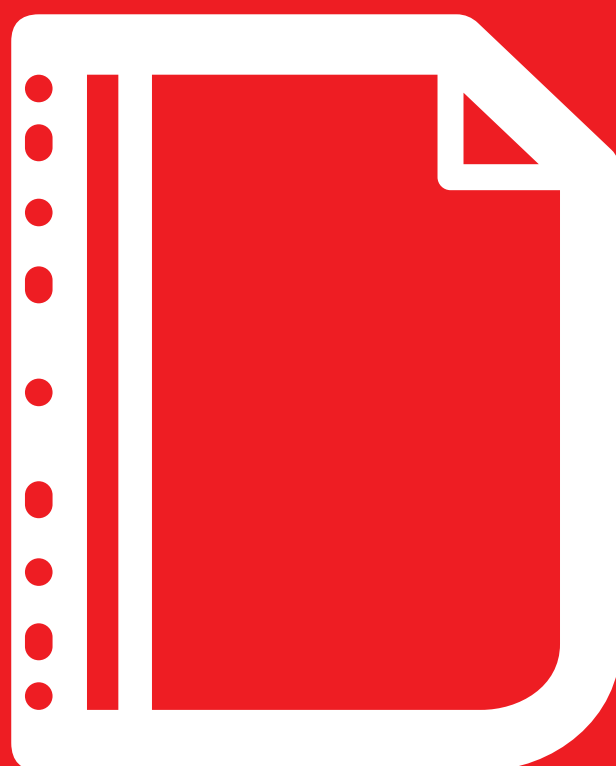

Contact us and get more information on cooperation benefits & conditions.
